Implementation and Automation: GoHighLevel, customer relationship management (CRM), webhooks, Google Apps Script, Google Sheets, React, Vite, Squarespace

Project and Security: Jira, project tracking, technical documentation, NIST 800-171, quality assurance

PROFESSIONAL EXPERIENCE

DePaul University | Online Learning Assistant | 09/2026 - Present

- Provide real-time technical support for instructors and students, troubleshooting Zoom, classroom technology, connectivity, and access issues.
- Perform pre-class technology checks and classroom walkthroughs; explain solutions to users with varying technical experience.

Digital Bloom | Founder and Technology Solutions Consultant | 09/2026 - Present

- Configure GoHighLevel CRM workflows, webhooks, and Google Sheets/Apps Script integrations to automate lead capture, contact updates, and email follow-up.
- Build and deploy responsive React/Vite websites; configure domains, intake forms, and checkout links, testing forms and automated communications.
- Gather client requirements and translate business needs into website, CRM, and workflow automation solutions.

University of Chicago | Project Management Intern - IT | 07/2025 - 06/2026

- Supported IT project workstreams for Linux-based HPC infrastructure, server/hardware lifecycle activities, and Windows 10-to-11 upgrades.
- Collected, validated, and documented NIST 800-171 compliance evidence across approximately 40 Jira-tracked tasks for security assessments and audits.
- Tracked project deliverables, dependencies, and task completion in Jira; maintained project records and standard operating procedures (SOPs).

Handshake AI | AI Evaluation Analyst (Contract) | Remote | 05/2026

- Evaluated AI-generated text, images, and video for accuracy, compliance, and instruction following; documented findings in structured quality assurance reviews.

Chicago Public Library Foundation | Cyber Navigator | 09/2024 - 01/2025

- Provided technical support by phone, email, and in person, troubleshooting devices, accounts, and digital tools for library patrons.
- Designed and delivered digital literacy and cybersecurity workshops for 200+ patrons; created instructional materials to support accessible learning.

VOLUNTEER EXPERIENCE

Logic Mentoring | Volunteer Web and Technology Consultant | 2026 - Present

- Improve a nonprofit Squarespace website, translating stakeholder requests into page structure, donation-flow, volunteer-content, and usability updates.
